☐ **1.** Join the Private Facebook Group

☐ **2.** If you already have a domain name, perfect! If you need one, we suggest purchasing one at Godaddy.com We'll collect your domain name information on step number 4 below.

☐ **3.** Purchase a *Security Certificate Installation* for your domain name. This makes your website show as SECURE on all browsers.

> **It's NOT required, but we recommend it.** Otherwise Google Chrome will show your website as "not secure."
>
> We're offering Stearns LOs special pricing on installing the certificate and securing your entire website—it's a $240 one-time setup instead of our standard $1,000 setup.
>
> Click Here to order a full security certificate installation for your website.
>
> If you choose not to add security, skip this step and move to item #4. You can always upgrade your website's security down the road.
>
> If you have questions about the *Security Certificate Installation*, call or email our support team.

☐ **4.** Fill out the Website Launch Checklist

☐ **5.** Once you've completed the *Website Launch Checklist*, it will take 3-5 business days to build, customize, test, and launch your new website.

> During this period, please also complete our 5-minute Client Success Survey
